

How to Send Order to Customer to Complete Later or on their Device

A customer may feel more secure using their own device to enter credit card information or they may need to complete the sale later. To ensure you get credit, you can send their order to their device in a few simple steps!

- 1) Add the item(s) in a cart and select **CHECKOUT.**

- 2) Select the share symbol 

- 3) Enter their phone number or provide QR code for the customer to scan.
